Influx of Carpet-Baggers.

It is with peculiar pleasure we noticed the arrival in Jonesboro', on Saturday last, the 2nd inst., of sixteen families of "carpet baggers," (so-called.) from Pennsylvania. Several of them, we learn, have purchased farms in this vicinity, and all come equipped with teams and implements for extensive farming operations. Such "carpet-baggers" find a cheerful welcome in East Tennessee. We wish them to any hour. Any number can be accommocome by the hundreds and thousands, and aid dated, especially ladies. Lost Her Reason.

It is with regret we announce that Mrs Kern, widow of the late Martin Kern, of this place, has, on account of severe domestic afflictions, become mentally deranged. So intense has become her malady, that her infant child had to be taken from her to prevent her from destroying it, which she several times threatened. We trust the good people of Jonesboro will look after her humanely.

Pail in Your Sections.

If our town authorities are not going to make any move in regard to repairing the enclosure around our town cemetery-which is a shame to the place-we trust, all who own acctions therein will arrange to have them pailed in, and thus prevent the depredations of rosming animals.

A Terrible Disease!

The Conservatives of Knoxville, and other portions of East Tennessee, are being prostrated with a new and dreadful disease .-They call it "Organize!" Many have passed to that bourne, &c., whilst bundreds are lying just as low as possible to be alive ! Physicians pronounce the disease incurable after election days! It has not reached Jonesboro' yet, will be the consequences when it does come!

A Blessing in Disguise.

O. J. Bacon, Esq., of this place, met with a streak of good luck but few in "these parts" seldom enjoy. A facetious "cuss" named Leel feloniously relieved him of his old clothes, and he had the pleasure of appearing in a new suit. Our corporation authorities should employ Leel to "clean up" the town !-andestablish a first-class paper mill!

All Fool's Day.

Once in Twenty Years !--- The Extra Large Full Moon in April ! The lunar peculiarities that mark the few

months over which we are passing may not prove unworthy of note. In January and also grand but we are looking for it every hour, and sad in March, there were two new moons, while in the intervening February there was no moon; which is a combination of very rare occurrence, not having taken place for at least forty years past, back to A. But still more worthy of note is the natural fact that in this mouth, (April,) ways brought quiet to distracted nerves .- | we have an exual concurrence of full mean with the periges of the moon's orbit; at which time the moon's apparent size is the largest it ever Such an occurrence cannot come oftener than once in twenty years, (and one hundred and seven days), and one so exact as this is not likely to occur for several centuries. The mature of the ingredients is no mystery. He consists of an absolutely pure diffusive atimulant, tinetured—or rather surcharged—with the fluid extracts of manatens roots and barks and herbs. The pharmacopoeta has its tinetures, but whitt are they? The juice of only a single root or bark or plant is prosent in each. Not one of them combines the three properties of a tonic, as allerative, and an aperient. All these elements are blended in the Bitters; nor are these the sum of its medicinal recommendations. It is also a blood deputed and an antisysamodic.

This condition soon shows it self in roughness of the skin, then in ERUP TIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lunge, or urinary apparatus. Much, very much, suffering is caused by im-PATNE and Miss MARGARET A. BENNETT, all pure blood. It is estimated by some that one-fifth of the human family are effected with scrofula in some form. When the Blood is pure, you are not so lin-

and functions of the Kidneys cannot estimate the importance of their healthy action. Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the arinary discharges will occasion death from

thirty-six to forty-eight bours. When the Urine is volded in small quantities at the time, or when there is a disposition to prinate more frequently than natural or when the Urine is high-endered or scalding, with weakness in the smalr of the back, it should not be trifled with or kelared, but the difficulty, before a lesion of the organs takes place. Most of the discases of the Bladder originate from those of the Kidneys, the Urine being imperfectly secreted in the Kidneys, prove irritating to the Blidder and Urinary passages. The Great Law Book! CHAMBERLIN'S 'American Commercial Law.' Every Business Man, as well as

Every Lawyer, Should have it. Read the following testimentals: From Judge Edward H. East, Chancellor of

Tennessee, Nov. 23, 1865.1 I have examined "American Commercial aw." for business men. The author has stated, with remarkable conclueness, and correctly, the principles of law governing the subjects of which he treuts. The lorge number of practical forms given will be useul to business men in all pursuits, and may be referred to wish advantage by both the professional and non-professional reader -Every man should have not morely a " Form Book," but a book with sufficient comment to make the forms intelligible, and adaptive.

believe this book is the only one of this kind I ever saw. From Hon. Larenzo Sawyer, Chief Justice of the Supreme Court of California, Oct. 6, '69 1 Mr. Chamberlin's work appears to me to he admirably adapted to the wants of busyness men. The statements of legal princioles, so far as I have been able to examine the work, seem to me to be clear, consise, pointed and accurate, and they cover most

questions that ordinarily arise in business Each department of the book is accompanied with appropriate forces which are worthy of special mention. It has been a reproach to the law that the forms for the rangaction of business, heretoface found in our law books, have so abounded in words, and in such a stunning retundity of sound, hat none but a first class lawyer has been able to declare their meaning.
